

## Pre-Separators

In grinding operations where a large amount of dust is produced, your dust extractor may need to be supplemented with a pre-separator. Pre-separators introduce an additional separation stage to capture as much dust as possible before it can reach the dust extractor. The benefit is increased efficiency in the separation of dust from the air stream, improved filter performance and significant reduction in the frequency of filter maintenance. A Pre-separator also contributes to higher airflow, faster pick-up and extended motor life.

The C3000 and C5500 also include our popular Longopac for safe containment and disposal of concrete dust and other harmful building materials such as asbestos and lead.

Pre-Separation Head  
for 55 gallon drum

Weight: 38 lbs  
Product Code: 201500203

DELUXE DRUM HEAD

Weight: 76 lbs  
Product Code: 201500203A

### C1300 Specifications

8.72 gal. pre-separator with built in vacuum equalizer for use with a plastic bag. Includes an 8ft, 2" hose assembly.

#### Designed for S13 and S26

Weight: 31 (lbs)  
Volume: 8.72 (gal)  
Collection: 11 gallon plastic bag  
Size: 16" x 19" x 33"  
Product code: 200600756A

### C3000 Specifications

9.77 gal. pre-separator with built in vacuum equalizer and Longopac collection system. Includes an 8ft, 2" hose assembly.

#### Designed for S26, S36 and T4000

Weight: 49 (lbs)  
Volume: 9.77 (gal)  
Collection: Longopac®  
Size: 25" x 22" x 58"  
Product code: 200500159A

### C5500 Specifications

26.41 gal. pre-separator with built in vacuum equalizer for use with a plastic bag. Includes an 33ft, 3" hose assembly.

#### Designed for T7500, T8600, T10000, T15000, T18000 and T8600 Propane

Weight: 130 (lbs)  
Volume: 26.41 (gal)  
Collection: Longopac®  
Size: 21" x 28" x 56"  
Product code: 200600451

## Vac Trailers for Preseparators

Pullman Ermator's Vac Trailers save time and labor. One person can move both a vacuum and a pre-separator simultaneously. With our unique design the pre-separator hitches inline with the vacuum so the whole unit can be easily moved through a standard door.

Works as one unit for moving the pre-separator and vac together, disconnect when the pre-separator is not in use or loading. **The only one on the market!**

Vac: S26  
Preseparator: C1300  
Weight: 19 lbs  
Dimensions: 33x26x9  
Product code: 201400599

Vac: S36, T4000  
Preseparator: C3000  
Weight: 22 lbs  
Dimensions: 33x26x9  
Product code: 201400598

Vac: T7500, 8600  
Preseparator: C5500  
Weight: 35 lbs  
Dimensions: 32x28x10  
Product code: 201400597

Vac: T10000  
Preseparator: C5500  
Weight: 40 lbs  
Dimensions: 32x28x9  
Product code: 201300490

Lay vac trailer on floor with small end facing vacuum. Undo Velcro straps.

Lift up back end and move Vac Trailer into position to hook on front of vacuum.

Lay unit down and leverage top. The bottom will hold in place.

Place large wheels completely into slots.

Tighten Velcro straps. Unit is installed and ready.
